

CLAIMS

I claim:

1. A cutting tool for cutting and retrieving gel slice from an Agarose gel and Acrylamide gel comprising:
 - a) A rectangle shaped tube at one end and a round shaped handle at the other end.
 - b) A removable plug is inserted from the upper end into the rectangle tube.
2. A cutting tool as recited in claim 1, where in said rectangle tube is fabricated from plastics or metal materials.
3. A cutting tool as recited in claim 1, where in said plug is fabricated from plastics or metal materials.
4. A cutting tool as recited in claim 2, where in said width of rectangle is between 2 and 10 mm and said length of rectangle between 3 and 40 mm.
